CAREER SUMMARY

Business Operations Senior Analyst with 6+ years of experience in analytics, automation, and workforce strategy. Proven track record in improving profitability, reducing financial risk, and building scalable data solutions.

Specialized in Power BI, Power Automate, and AI-enabled analytics (Microsoft Copilot) to drive faster, data-driven decision-making. Recognized for translating complex data into executive-level insights and leading process optimization and digital transformation initiatives.

CORE COMPETENCIES

- Business Intelligence & Analytics
- Financial Management & Risk Mitigation
- Low-Code / No-Code Automation
- AI & Automation
- Executive Reporting & Data Storytelling
- Agile Project & Stakeholder Management
- Leadership & Team Enablement
- Process Optimization (Lean Six Sigma)

TECHNICAL SKILLS

- Analytics & Visualization: Power BI (Certified), Excel (Advanced), Tableau, SQL, Python
- Automation & AI: Power Automate, Power Apps, Copilot AI Agents, Prompt Engineering
- Project Tools: Jira, Confluence, MS Office Suite
- CRM: HubSpot and Zendesk
- Computer Networking, Cloud Computing

WORK HISTORY

Accenture | Uptown, BGC, Taguig City

- **Business Operations Senior Analyst | Dec 2024 – Present**
[Client Operations POC – Salesforce & Oracle](#)
 - Partnered with senior leadership to sustain 95% profitability by aligning workforce deployment with financial and operational targets.
 - Reduced forecasted 8% overspend to 4% through proactive budget realignment and capacity optimization.
 - Mentored analysts to independently produce dashboards and business reviews, enhancing team data fluency.
 - Delivered executive-level presentations to 90+ senior stakeholders across multiple business units, earning the Insight Builder Award for analytical impact.
- **Business Operations Analyst | Jun 2022 – Dec 2024**
[Client Operations POC – Workday & Connected Solutions | Bench & Learning SubLead](#)
 - Led workforce capacity planning and financial forecasting aligned with profitability and utilization targets
 - Improved demand-supply alignment through data-driven reviews, increasing resource utilization efficiency
 - Partnered with cross-functional teams to drive workforce and operational strategy execution
 - Recognized with multiple Gantimpala Awards for innovation and stakeholder impact
- **Business Operations Associate | Jan 2020 – Jun 2022**
[Learning POC – Accenture Technology Enterprise Platforms](#)
 - Supported training strategy, budget planning, and cost optimization for enterprise programs
 - Identified and mitigated risks in training spend through root cause analysis and compliance checks
 - Consolidated and analyzed multi-source data to support executive decision-making

SELECTED PROJECTS AND IMPACT

AI, Automation & Analytics Solutions (Built & Deployed)

- **Built an AI-powered analytics agent (Microsoft Copilot + Excel)** that translates workforce data into real-time insights, recommended actions, and forecast scenarios—accelerating decision-making and reducing manual analysis.
- **Developed a workforce optimization model (Excel + VBA)** to analyze staffing mix, cost drivers, and deployment gaps; enabled data-driven decisions to improve cost efficiency and resource allocation.
- **Designed a headcount forecasting dashboard (Power BI)** with scenario modeling (supply vs. demand vs. capacity), providing leadership with clear visibility for strategic workforce and profitability planning.
- **Automated compliance and reporting workflows (Power Automate)** to track weekly submissions and trigger gap alerts; improved reporting discipline and eliminated repetitive manual follow-ups.
- **Launched an automated asset verification system (Power Automate + Teams bot)** to streamline audit processes through user validation flows; increased data accuracy and ensured audit readiness at scale.

EDUCATION

Bachelor of Science in Electronics Engineering | AMA Computer College – Cavite (2015–2019)

- **Cum Laude** (GPA: 1.31/5.0) | **Leadership Awardee**, IECEP Cavite
- Licensed Electronics Engineer (PRC No. 0074284) since 2019
- Licensed Electronics Technician (PRC No. 0021196) since 2019

TESDA Certifications (2017–2019)

- Electronics & Products Assembly NC II | AutoCAD 2D & 3D NC II | Computer System Servicing NC II

TRAINING AND CERTIFICATION

- Accenture Certified Citizen Developer
- Certified Lean Six Sigma Yellow Belt (CLSSYB)
- Google Professional Certifications: Data Analytics | Project Management
- Agile Scrum Project Management Jira & Confluence Workshop
- Generative AI Essentials Training
- Storytelling for Leaders | People Lead Development Learning Series | Business Resilience Training
- MS Excel Certified (Beginner to Advanced)

PROFESSIONAL ACCOMPLISHMENTS

- **Insight Builder Award (FY25):** For data-driven decision support and dashboard innovation
- **Maharlika Best People of the Year (FY24):** Global recognition for operational excellence
- **Gantimpala Awardee (FY22–FY23):** Outstanding impact and stakeholder partnership
- Multiple leadership commendations for analytics, financial accuracy, and innovations

VERIFIED CERTIFICATIONS (CREDLY)
